

Ultrasonic Power Transducer & Power Supply

#90-5010

FEATURES

- High Efficiency
- Large Amplitude
- Low Heat
- Stable Output Regardless Of Load

APPLICATIONS

- Fabric Cleaning
- Nebulizer/Atomizer
- Ultrasonic Mixing
- Cell Disruption

TECHNICAL SPECIFICATIONS

Power Supply

Input Power	DC24V
Operating Current	200~600mA
Operating temperature range	+5°C~+40°C

Suggest not to continuously operate more than 30 minutes

Transducer (Cat# 90-5000)

Resonant Frequency	50± 2 KHz
Resonant Resistance (Ro)	Max 100 ohms
Capacitance	2750pF ±20%
Bandwidth	≥ 1.0KHz
Insulation Resistance	≥500M Ω 2,500VDC

APC 4SS-1550 Transducer
& Power Supply
